## SUMMARY

Energetic and adaptable Software Engineering student eager to turn ideas into impactful solutions. I'm building strong foundations in back-end development, databases, and data analysis, with hands-on experience in Python, SQL, HTML, CSS, JavaScript, and React. I hold the IBM Back-End Development Professional Certificate and am currently strengthening my front-end skills through the Meta Front-End Developer Professional Certificate on Coursera.

Fluent in English and shaped by academic, professional, and international experiences, I enjoy solving problems, communicating clearly, and collaborating in diverse teams. I'm excited to keep exploring the tech world, contribute to meaningful projects, and grow into a well-rounded software engineer ready to make a difference.
